For more than 50 years, Nisivoccia has been serving the same communities that you serve. Our professionals reside, work in, and contribute to these communities giving them an understanding of what it means to aspire to better those communities. We also serve as Board members to local organizations giving our team practical insights into what not-for-profits need from their accounting relationship and empowers us to deliver that to you.

### Our Approach

An audit is a fact of life for all types of entities, including Not-for-Profit organizations. Working proactively with your boards and management teams, we can prevent any missteps or problems that might raise a red flag or be cause for legal concern. We become an extension of your organization and work side-by-side to help you make sound financial decisions, so the audit goes smoothly.

### Community Matters

Our employees are socially conscious and support our clients and their missions beyond the audit. We participate in philanthropic activities, hold blood drives and organize collections for local shelters, family resource centers, and our veterans.
